ADDITIONAL INFO

Useful information you may need:

WEATHER IN AUGUST:

August, the last month of the summer in Tunis, is another hot month, with an average temperature fluctuating between 30°C (86°F) and 40°C (104°F).

CLOTHES FOR HOT WEATHER IN TUNISIA:

Dressing in hot weather can be challenging. The goal is to stay cool as possible, get protected from the sun, and feel comfortable. The best clothes for hot weather are light-colored, loosely fit, and made of cool materials like cotton, jersey, and linen.

We recommend that you bring a cream or ointment anti mosquitos as they are very common in Tunis in August.
